## Premiers pas vers la lecture

**Abécédaire illustré  
pour connaître les  
lettres et les sons**

# Abécédaire illustré pour connaître les lettres et les sons

Fichier créé par Anne-Marie Samoun [annemariesam@free.fr](mailto:annemariesam@free.fr)

Ce fichier de phonologie fait découvrir toutes **les lettres de l'alphabet**. En associant chacune d'elles à des **images**, donc à des mots, l'enfant se familiarise avec les différents **sons** produits par la première lettre des mots et à leur lecture.

Chaque **lettre** est présentée sur une feuille de format A4 dans 3 types d'écriture ; à chaque lettre correspondent plusieurs images illustrant des mots commençant par cette lettre, images qu'il s'agit de découper sur des planches d'images et de coller dans les cases prévues sous la lettre. L'exercice développe la dextérité manuelle de l'enfant en même temps que ses facultés de discrimination auditive.

En avançant dans l'alphabet la difficulté augmente : la première planche comporte **16 images** à répartir entre les lettres A et B. La discrimination à faire par l'enfant est assez facile, car elle ne porte que sur des sons correspondant à deux lettres. De même la seconde planche concerne des images illustrant des mots commençant par C et D. Mais à partir de la lettre « I », une planche regroupe les images illustrant au moins trois lettres et l'exercice se complique.

Le mot correspondant à une image n'est en général pas indiqué, sauf pour les mots difficiles ou supposés moins connus des enfants.

Les lettres C et G présentent des particularités, car leur prononciation varie selon les mots : 3 cas différents pour C ([c] - [ch] ou [s]) et 2 cas pour G ([g] ou [j]). Ceci permet des exercices de classement spécifiques à ces lettres, qui s'ajoutent aux exercices de tri entre les lettres.

Tous les enfants ne termineront pas en même temps une page concernant une lettre : les plus rapides devront s'occuper à une autre tâche comme colorier la page remplie, pendant que les moins vifs terminent leur page. Chaque enfant pourra conserver son travail et regrouper au fil du temps toutes les pages , se constituant ainsi un alphabet illustré complet. En complément, on pourra faire écrire aux enfants sous chaque image la première syllabe des mots qu'elles illustrent. On pourra aussi leur demander de mettre à part les mots qui commencent par Ba, pour la lettre B ou Ma pour la lettre A, etc...

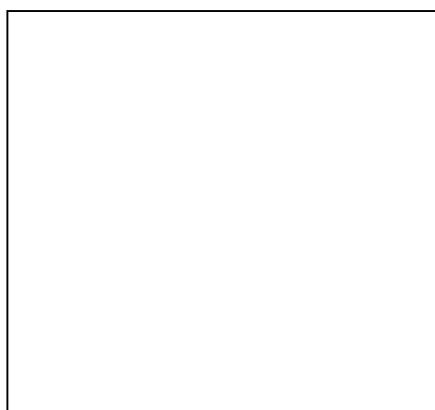

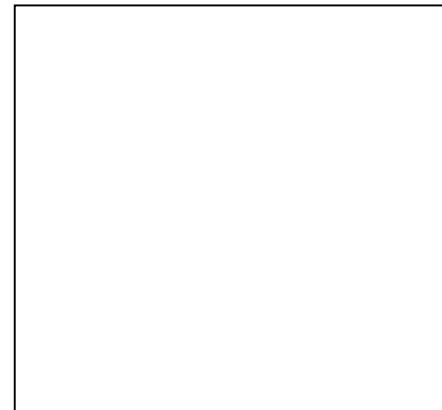

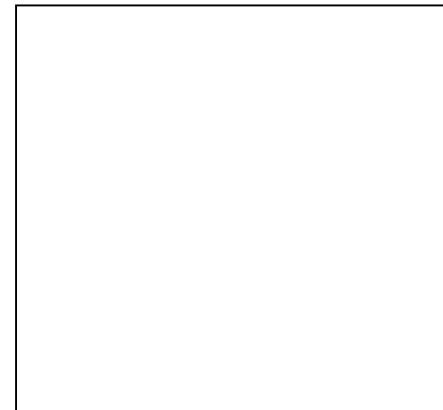

Ce fichier facilite la connaissance des lettres, l'association de celles-ci aux sons et la discrimination entre les sons.
