FICHIER

Premiers pas vers la lecture : 100 fiches pour prendre conscience des sons

Fichier créé par Anne-Marie Samoun annemariesam@free.fr

Un enfant dont la conscience phonologique est éveillée apprendra facilement à lire. Le but de ce fichier est de développer la conscience des sons chez l'enfant en mettant à disposition une gamme de fiches progressives et variées.

- un outil pour apprendre

*Les différents niveaux de fiches permettent de s'adapter au progrès de l'enfant.
*Classées par difficultés croissantes, elles s'adaptent à la pédagogie en ateliers aussi bien qu'à une utilisation en grand groupe. Vous pouvez jouer sur le temps d'exécution des fiches en choisissant le type de consigne : « colorier ou coller » pour un temps long en atelier, ou « entourer ou barrer » pour un temps court et collectif.

- un outil pour évaluer

Comment évaluer les compétences des enfants quand on a un groupe nombreux ? Ce fichier est une solution car il permet de distribuer à une classe des exercices différents mais de difficultés comparables, obligeant à un travail individuel fiable.

Ce fichier ne dispense pas d'un apprentissage oral des sons et de petits jeux qui visent à développer la conscience phonologique des enfants comme de compter les syllabes des mots, jouer à inverser des syllabes, trouver des mots qui commencent par… Vous trouverez des idées plus développées sur :
http://www.webinstit.net/pedagogie/conscience_phonologique.htm

C'est volontairement que l'alphabet phonétique international n'a pas été utilisé pour transcrire les sons, pour éviter à ceux qui ne le connaissent pas des recherches inutiles. Les fiches sont toutes réalisées à partir de dessins simples illustrant le vocabulaire usuel des enfants. Cependant, 100% des enfants n'identifieront pas 100% des images et c'est à l'adulte de venir dissiper une ambigüité (par exemple, pour plusieurs arbres, faut-il dire arbres ou forêt) ou de donner le vocabulaire manquant. C'est aussi l'occasion pour des enfants disposant de peu de « mots » d'enrichir leur vocabulaire.

Fichier sous licence Creative Commons 4.0, avec les clauses BY,NC,SA

SOMMAIRE

les consignes	*découpe*	*colle*	*colorie*
dessine	*entoure*	*relie*	*barre*

Compter le nombre de syllabes

1-Déterminer un nombre de syllabes (6 images)
2-Déterminer un nombre de syllabes (8 images)
3-Déterminer un nombre de syllabes (10 images)
4-Classer en fonction du nombre de syllabes (6 images)
5-Classer en fonction du nombre de syllabes (9 images)
6-Classer en fonction du nombre de syllabes (10 images)
7-Déterminer le mot qui a le plus de syllabes (9 choix)
8-Déterminer le mot qui a le moins de syllabes (10 choix)

Entendre une syllabe en début de mot

9- Entendre « ma » en début de mot (6 images)
10- Entendre « pa » en début de mot (6 images)
11- Entendre « ta » en début de mot (6 images)
12- Entendre « ca » en début de mot (6 images)
13- Classer les mots selon qu'ils commencent par ba ou ca
14- Classer les mots selon qu'ils commencent par ma, mi, mo, mu
15- Classer les mots selon qu'ils commencent par pa, pé, pi, po, pu
16-Classer les mots selon qu'ils commencent par la, lé, li, lo, lu
17-Classer les mots selon qu'ils commencent par ta, té, ti, to, tu
18-Faire correspondre des mots qui commencent par la même syllabe
19-Faire correspondre des mots qui commencent par la même syllabe
20-Faire correspondre des mots qui commencent par la même syllabe
21-Faire correspondre des mots qui commencent par la même syllabe
22-Faire correspondre des mots qui commencent par la même syllabe
23-Faire correspondre des mots qui commencent par la même syllabe
24-Barre l'intrus qui ne commence pas par la même syllabe
25-Barre l'intrus qui ne commence pas par la même syllabe
26-Recompose un mot en prenant la première syllabe de deux autres mots
27-Trouve un mot en retirant la première syllabe

Entendre une voyelle en début de mot

28-Classer des images qui commencent par des voyelles (6 images)
29-Classer des images qui commencent par des voyelles (8 images)
30-Colorier des images qui commencent par des voyelles
31-Classer des images qui commencent par « a » ou « i » (8 images)

© webinstit.net

32-Colorier des mots qui commencent par « a » (6 images)
33-Colorier des mots qui commencent par « a » (12 images)
34-Entourer les mots qui commencent par « é » (18 images)
35-Repérer des mots qui commencent par le son [s] (6 images)
36- Repérer des mots qui commencent par le son [s]
37-Repérer des mots qui commencent par le son [f]
38-Repérer des mots qui commencent par le son [b]
39-Repérer des mots qui commencent par le son [m]
40-Repérer des mots qui commencent par le son [p]
41-Repérer des mots qui commencent par le son [r]
42-Repérer des mots qui commencent par le son [t]
43-Repérer des mots qui commencent par le son [d]
