FICHER

Logique et mathématiques avec des formes géométriques

Fichier créé par Anne-Marie Samoun annemariesam@free.fr

Ce fichier permettra, grâce aux formes géométriques, de développer les capacités mathématiques (sens de l'observation, reconnaissance de formes, logique, repérage, dénombrement...) des enfants de 4 à 6 ans.

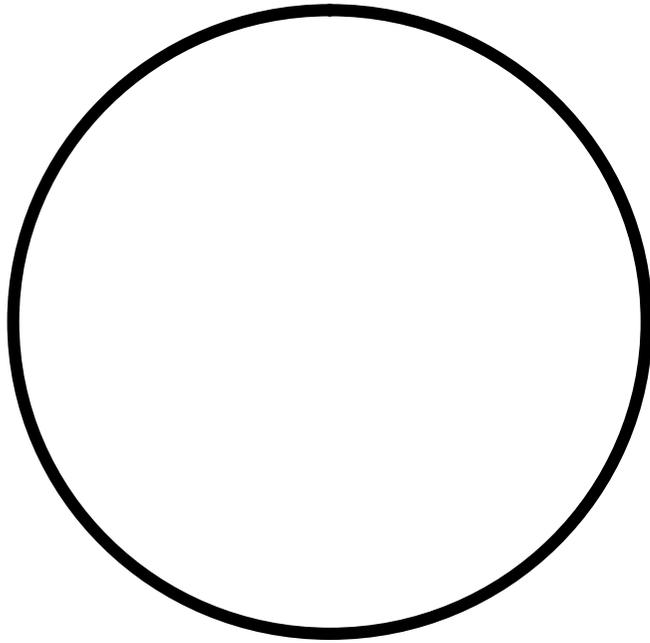

Différents types d'activités sont proposés :

- Reconnaître des formes géométriques (fiche 5), reconnaître des formes géométriques par le coloriage à codes (fiches 6 et 7)
- Trouver un dessin identique au modèle (fiche 8)
- Recomposer un dessin à l'aide de forme géométriques : Ces exercices développent des facultés de repérage dans l'espace. (fiches 9 à 15)
- Topologie (sur, sous, devant, derrière, dedans, dehors...)(fiches 16 à 18)
- Symétrie (fiches 19 à 24)
- Puzzles (fiches 25 et 26)
- Alternner un rythme (fiches 27 et 28)
- Dénombrer (fiches 29 et 30)

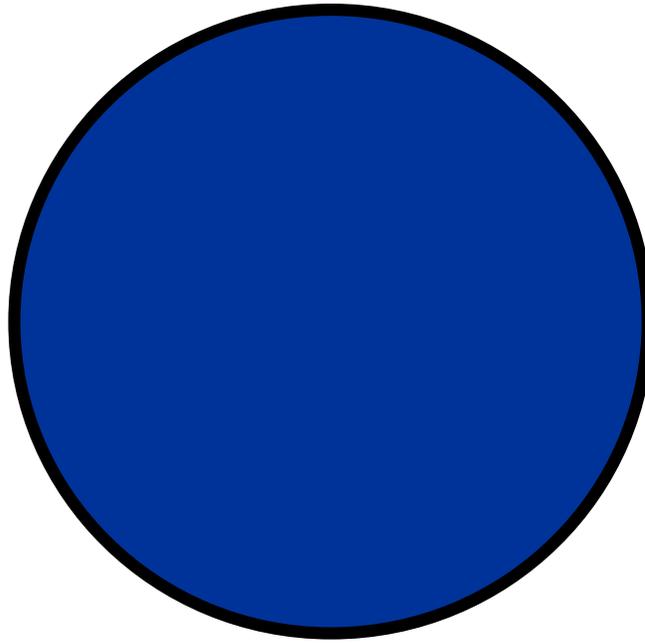

Certaines fiches sont en noir et blanc, pour permettre aux enfants de les colorier.

En plus, vous trouverez des posters représentant chaque forme, qui peuvent servir d'affichage.(fiches de 1 à 4)

Relie les différents objets à la forme géométrique qu'ils représentent

The image contains several objects and shapes arranged for a matching exercise. On the left side, there are: a yellow diamond-shaped gemstone, a globe of the Earth, a ping-pong table, a wooden set square, a yellow ring, and a drawing of the Great Pyramids. At the top center, there is a house with a door and window. To its right is a playing card, the Ace of Diamonds. Further right are three colorful alphabet blocks (A, B, C) and a hand holding a CD. On the right side, there is a television set and a lit candle. In the center, a large white cloud-like shape contains a collection of geometric forms: a circle, a square, a diamond, a cube, a blue circle, a black sphere, a white triangle, a grey pyramid, an oval, and a horizontal rectangle. At the bottom, there is a chalkboard with 'ABC' written on it, a red ball with the number '5', a wireframe triangle, and a lit candle.
